

```
mpi_subdomain::mpi  
_subdomain_make_ghostcell  
_ddtype
```

main

```
graph RL; main[main] --> subdomain[mpi_subdomain::mpi_subdomain_make_ghostcell_ddtype];
```

The diagram illustrates a function call. A box on the right labeled 'main' has a blue arrow pointing to a larger box on the left. The left box contains the text 'mpi_subdomain::mpi_subdomain_make_ghostcell_ddtype'.
